Description

The BITFLEX Witte-28021 Phillips bit is a high-quality tool designed to deliver exceptional performance in screwdriving applications. Its innovative recessed area, known as the "flex" zone, allows the bit to absorb torque overloads, minimizing the risk of damage and extending its lifespan. This ingenious design is based on the principle of bar torsion, ensuring that force is distributed evenly and efficiently. With a short 1/4" guide, this bit is ideal for working in confined spaces and provides a precise fit on Phillips screws.
