Description

The Witte-28022-BITFLEX Phillips Bit with 1/4" Short Guide (PH2x25) is a tool designed to deliver exceptional performance in screwdriving applications. Its innovative recessed area, known as the "flex" zone, allows the bit to absorb torque overloads, minimizing the risk of damage and extending its lifespan. This ingenious design is based on the principle of bar torsion, ensuring that the applied force is evenly distributed, thus preventing premature wear of the bit. With a short 1/4" guide, this bit is ideal for working in confined spaces and provides a precise fit on Phillips screws.

- **Model:** Witte-28022
- **Tip Type:** Phillips (PH2)
- **Length:** 25 mm
- **Guide:** 1/4" Short
- **Flex Zone:** Designed to absorb overloads
- **Torsion Principle:** Uniform force distribution
- **Increased Service Life:** Minimizes tip wear
- **Applications:** Ideal for working in confined spaces
- **Compatibility:** Compatible with standard screwdriving tools
- **Material:** Made of high-quality steel

Specifications

EAN	4003955307954

Manufacturer	WITTE
Weight (kg)	0,0100
