Product sheet

WITTE BITFLEX DIAMOND 1/4" short Phillips bit PH1x25 mm for precise screwdriving

Brand: Witte

Reference: TUR 27971

Witte-27971 DIAMOND 1/4" short Phillips bit (PH1x25) with diamond microparticle coating. Offers a precise fit and reduces slippage, ensuring a secure grip. Wear and corrosion resistant, ideal for mechanical applications.

Description

The BITFLEX DIAMOND Phillips bit with a 1/4" short guide (PH1x25) is a high-precision tool designed to deliver exceptional performance in screwdriving applications. Thanks to its innovative diamond microparticle coating, these bits fit optimally to the screw head, minimizing slippage and ensuring a firm grip. This feature is especially crucial when working with delicate or high-value surfaces, where the risk of damage is significant. Furthermore, the high-quality gold coating provides effective corrosion protection, extending the tool's lifespan. The extremely hard diamond particles ensure the bit is wear-resistant, making it an ideal choice for serial screwdriving applications, both mechanical and automated.

- **Tip Type:** Phillips (PH1)
- **Length:** 25 mm
- **Guide:** 1/4" short
- **Material:** Steel with diamond microparticles
- **Coating:** Gold, high quality
- **Resistance:** High wear resistance
- **Applications:** Mechanical and automated serial screw fastening
- **Precision:** Maximum adjustment accuracy
- **Protection:** Optimal corrosion protection
- **Recommended use:** High-value or delicate surfaces

Specifications

EAN	4003955319773
Manufacturer	WITTE
Weight (kg)	0,0100
