Description

The STANDARD TIN Witte-29613 Torx bit is a high-precision tool designed to deliver optimal performance in applications requiring a secure and efficient fit. With a length of 50 mm and a 1/4" drive, this guide is ideal for working in confined spaces and provides excellent leverage. Its TIN (titanium nitride) construction ensures greater durability and wear resistance, making it a reliable choice for professionals and DIY enthusiasts. The Torx shape allows for better force transmission and reduces the risk of slippage, ensuring a perfect fit on Torx screws.

- **Model:** Witte-29613
- **Type:** Standard Torx Tint
- **Length:** 50 mm
- **Guide Diameter:** 1/4"
- **Material:** TIN (titanium nitride)
- **Use:** Compatible with Torx screws
- **Applications:** Ideal for working in confined spaces
- **Advantage:** Reduced slippage and better power transmission
- **Durability:** High wear resistance
- **Compatibility:** Standard 1/4" tools
