Description

The Witte-29485 security Torx bit is a versatile tool designed to meet the needs of most applications. With a short 1/4" guide, this bit is ideal for working with screws that require high torque values, such as wood screws. Its robust and durable design allows for optimal performance even in situations demanding increased torque, such as with metric screws in metal. The quality of the BITPRO brand guarantees a long service life, making it a reliable choice for professionals and DIY enthusiasts.
