

Product sheet

**MAGNETIC hexagonal cup 65x13 mm with magnet and practical design in blister pack.**

Brand: ATM

Reference: TUR 131913-B

ATM-131913-B magnetic hexagonal socket in blister pack, measuring 65 x 13 mm. Includes a 1/4" hexagonal guide and a permanent magnet for a secure grip. Ideal for applications requiring precision and ease of use in mechanical work.

[View product online](#)**Description**

The ATM-131913-B magnetic hexagonal socket is an essential tool for professionals who require precision and efficiency in their work. With a robust and functional design, this socket is designed to fit any 1/4" screwdriver or tool, allowing for a secure and stable connection. Its permanent magnet ensures that screw bits stay firmly in place, minimizing the risk of falling out or being lost during use. Made from high-quality materials, this hex socket is ideal for mechanical, woodworking, and assembly applications, offering durability and wear resistance.

- **Hex Drive:** 1/4" for a perfect fit.
- **Permanent Magnet:** ensures the retention of screws and metal parts.
- **Dimensions:** 65 mm in length and 13 mm in diameter.
- **Material:** made of high-strength steel.
- **Compatibility:** suitable for various power and hand tools.
- **Use:** ideal for precision work in mechanics and woodworking.
- **Design:** Compact and lightweight, easy to carry and store.
- **Durability:** Resistant to wear and corrosion.
- **Applications:** Perfect for assembly and repairs.
- **Packaging:** Delivered in blister packaging for better protection and storage.

Specifications

High	16,00
