Description

The ATM-14PH250B screwdriver bits are designed to deliver optimal performance in screwdriving tasks that require precision and control. With an integrated depth stop, these bits ensure that screws are inserted to the correct depth, preventing damage to the material's surface and guaranteeing a professional finish. Made from high-quality steel, their durability and wear resistance make them an indispensable tool for both professionals and DIY enthusiasts. Presented in a practical individual blister pack, they are ideal for keeping your work tools organized and accessible.

- **Tip Type:** PH2
- **Length:** 50 mm
- **Material:** High-quality steel
