Description

The Olfa-PL-1 utility knife is a professional tool designed for efficient and comfortable cutting. This model features an automatic blade-changing mechanism that allows you to replace the blade in seconds, optimizing your working time. Its design includes a magazine that can store up to 6 blades, facilitating easy access and availability of cutting tools at all times.

The automatic locking system ensures the blade stays in place with a single touch, providing greater safety during use. Additionally, the secondary screw lock allows you to further secure the blade, guaranteeing consistent and safe performance. The blades are made of high-quality tungsten steel, ensuring precise and long-lasting cuts.

This utility knife is ideal for various applications, including cutting drywall, plasterboard, leather, rubber, and plywood, among others.

Its body is made of high-strength plastic resin, while the blade channel is made of stainless steel, providing durability and wear resistance.

- **Locking Type:** Automatic
- **Blade Size:** 18 mm
- **Body Material:** High-strength plastic resin
- **Blade Channel Material:** Stainless steel
- **Compatible Blades:** LB, LBB, LBD, LB-SOL, LFB, LWB

Blade Replacement Instructions:

1. Remove the blade by pushing the slider forward until it stops.
2. Press the red locking button and pull out the black plug.
3. Open the back cover, insert the refill blades, and close the cover by inverting the order.
