Description

The Olfa-RTY-3/DX rotary cutter is a cutting tool designed to offer precision and comfort in a variety of applications. Equipped with a 60 mm circular blade, this cutter allows for powerful and efficient cuts, ideal for thicker materials and multiple layers. Its ergonomic handle reduces hand fatigue, making it an excellent choice for extended use. Furthermore, its design is suitable for both right- and left-handed users, ensuring versatility.

One of the most outstanding features of this cutter is its push-button lock, which provides a double-action safety system. The blade is released only when the trigger is pressed, minimizing the risk of accidents.

The cutter comes preloaded with a 60mm RB60 rotary blade and is compatible with PIB45 and WAB45 decorative blades, allowing for wavy line cuts. To replace the blade, it is essential to follow the safety instructions, ensuring the lock is engaged and the blade is not exposed. This utility knife is an essential tool for any DIY enthusiast or professional looking for precision and safety in their cuts.
