Description

The SK-4 Safety Cutter is a cutting tool designed to provide safe and efficient handling, incorporating a semi-automatic retraction mechanism that protects the user after each use.

Technical characteristics

- Self-retractable blade with powerful return spring.
- Robust blade channel made of stainless steel.
- Reversible double-use knives.
- Ergonomic handle for a comfortable grip.
- Resistant to acid and acetone.
- Measurements: 140mm x 36mm (Length x Width).
- Suitable for left-handed users by inverting the blade.
- Blade change without tools.

Thanks to its safety system, it prevents accidental injuries by automatically retracting when losing contact with the material. Its design allows a quick and safe replacement of the leaves.
