Description

The **Olfa-TS-1** is an innovative cutter specifically designed for cutting coupons, magazine pages, and newspapers with precision and ease. This cutter features automatic adjustable pressure control, allowing you to adapt the cutting force according to the thickness of the material. Its unique design ensures that only the top sheet is cut, preserving the underlying content. Equipped with two replacement blades, the TS-1 guarantees long-lasting and efficient performance.

The integrated spring mechanism maintains constant pressure on the cutting edge, allowing for stable and precise cuts, regardless of the force applied.

For thin materials like newspapers, it is recommended to adjust the regulator towards the **MIN** mark, while for thicker materials, such as magazine covers, it should be moved towards the **MAX** mark.

Technical Features:

- Automatic adjustable pressure control.
- Cuts only the top sheet, preserving the underlying material.
- Integrated spring for constant pressure on the cutting edge.
- Includes 2 high-quality alloy steel replacement blades.
- Ergonomic design for comfortable handling.
- Easy blade replacement.
- Ideal for newspaper and magazine clippings.
- Precision single-sheet cuts.
- Clear instructions for safe and effective use.

- Compact and lightweight, easy to store.

The Olfa-TS-1 is the perfect tool for those looking to make precise and clean cuts in thin materials, ensuring professional results every time.

Specifications

High	1,30
Width	8,00
EAN	91511900125
