Description

The NWS-2016-8 hexagonal socket, with a 3/8-inch drive and conforming to DIN 7448, is designed to deliver exceptional performance in demanding applications. Made from forged, oil-treated chrome vanadium steel, this socket ensures superior durability and strength, making it an essential tool for both professionals and DIY enthusiasts. Its hexagonal design allows for a perfect fit on screws and nuts, minimizing the risk of slippage and wear.

The socket features a two-tone, multi-layered insulator, with a red exterior and a yellow interior, which not only provides a distinctive appearance but also improves visibility and allows for quick identification of the tool on the job site.

- **Material:** Forged and oil-treated chrome-vanadium steel
- **Size:** 3/8 inch
- **Standard:** DIN 7448
- **Design:** Hexagonal for a precise fit
- **Insulator:** Two-tone, multi-layered (red exterior, yellow interior)
- **Durability:** High durability and wear resistance
- **Use:** Ideal for professional and DIY applications
- **Visibility:** Colors that facilitate identification
- **Compatibility:** Compatible with 3/8-inch tools
- **Maintenance:** Easy to clean and maintain
