Description

The NWS-2016-11 hexagonal socket, with a 3/8-inch drive and conforming to DIN 7448, is designed to deliver exceptional performance in demanding applications. Made from forged, oil-treated chrome vanadium steel, this socket ensures superior durability and strength, making it an essential tool for professionals and DIY enthusiasts alike. Its hexagonal design allows for a precise and secure fit on bolts and nuts, minimizing the risk of slippage and wear.

The socket features a two-tone, multi-layered insulator, with a red exterior and a yellow interior, which not only provides visual appeal but also improves the tool's identification and usability in work environments.

This combination of materials and design ensures optimal performance and a long service life.

- **Material:** Forged and oil-treated chrome-vanadium steel
- **Size:** 3/8 inch
- **Standard:** DIN 7448
- **Design:** Hexagonal for a secure fit
- **Insulation:** Bicolor multi-layer (red exterior, yellow interior)
- **Strength:** High durability and wear resistance
- **Use:** Ideal for professional and DIY applications
- **Identification:** Colors for easy location
- **Maintenance:** Easy to clean and maintain
- **Compatibility:** Compatible with 3/8 inch tools

Specifications

EAN	4003758201619
Manufacturer	NWS
Weight (kg)	0,0800
