Description

The NWS-2016-12 hexagonal socket, with a 3/8-inch drive and conforming to DIN 7448, is designed to deliver exceptional performance in demanding applications. Made from forged, oil-treated chrome vanadium steel, this socket ensures superior durability and strength, making it an indispensable tool for professionals and DIY enthusiasts alike. Its hexagonal design allows for a firm and secure grip, minimizing the risk of slippage during use.

The socket features a two-tone multi-layer insulator, with a red exterior and a yellow interior, which not only provides a distinctive appearance but also improves the tool's visibility and identification on the job site.

- **Material:** Forged and oil-treated chrome-vanadium steel
- **Size:** 3/8 inch
- **Standard:** DIN 7448
- **Design:** Hexagonal for a secure grip
- **Insulator:** Two-tone multi-layer (red exterior, yellow interior)
- **Durability:** High wear resistance
