Description

The NWS-2016-15 hexagonal socket, with a 3/8-inch drive and conforming to DIN 7448, is a high-quality tool designed to meet the demands of professionals in the mechanical and construction industries. Made of chrome vanadium steel, this socket has been forged and oil-treated, ensuring exceptional wear resistance and extended durability under demanding working conditions. Its hexagonal design allows for a firm and secure grip, minimizing the risk of slippage during use.

The socket features a two-tone, multi-layered insulator, with a red exterior and a yellow interior, which not only provides a distinctive appearance but also improves the tool's visibility and identification in the workplace.

- **Material:** Forged and oil-treated chrome-vanadium steel
- **Size:** 3/8 inch
- **Standard:** DIN 7448
- **Design:** Hexagonal for a secure grip
- **Insulator:** Two-tone, multi-layered (red exterior, yellow interior)
- **Strength:** High wear resistance
- **Durability:** Oil-treated for longevity
- **Use:** Ideal for mechanical and construction applications
- **Visibility:** Distinctive colors for easy identification
- **Compatibility:** Compatible with 3/8-inch tools
