Description

The NWS-2013-18 hexagonal socket is a high-precision tool designed to meet the demands of professionals in the mechanical and industrial sectors. Made of forged, oil-treated chrome-vanadium steel, this socket guarantees exceptional durability and superior wear resistance. Its hexagonal design allows for a perfect fit on bolts and nuts, minimizing the risk of slippage and ensuring optimal performance with every use. Additionally, it features a two-tone multi-layer insulator, with a red exterior and a yellow interior, which not only provides a comfortable grip but also facilitates quick tool identification on the job site.

- **Material:** Forged and oil-treated chrome-vanadium steel
- **Dimensions:** 1/2 inch DIN 7448 (SW.18)
- **Design:** Hexagonal for a precise fit
- **Insulator:** Two-tone multi-layer (red exterior, yellow interior)
- **Resistance:** High resistance to wear and corrosion
- **Use:** Ideal for mechanical and maintenance applications
- **Compatibility:** Compatible with 1/2 inch tools
- **Easy identification:** Distinctive colors for quick Location
- **Durability:** Oil treatment to extend service life
- **Performance:** Minimizes slippage during use

Specifications

EAN	4003758200186
Manufacturer	NWS
Weight (kg)	0,0900
