Description

The NWS-2013-22 hexagonal socket, with a 1/2-inch drive and conforming to DIN 7448, is a high-quality tool designed to meet the demands of professionals in the mechanical and construction fields. Made of forged, oil-treated chrome-vanadium steel, this socket offers exceptional durability and wear resistance, ensuring optimal performance in a variety of applications. Its ergonomic design and high-precision finish allow for a perfect fit on screws and nuts, minimizing the risk of slippage and damage to parts.

The socket features a two-tone, multi-layered insulator, with a red exterior and a yellow interior, which not only provides a distinctive appearance but also improves visibility and makes it easier to locate on the job site.

- **Material:** Forged and oil-treated chrome-vanadium steel
- **Size:** 1/2 inch
- **Standard:** DIN 7448
- **Design:** Hexagonal for better grip
- **Insulator:** Two-tone, multi-layered (red exterior, yellow interior)
- **Durability:** High durability and wear resistance
- **Applications:** Ideal for mechanical and construction work
- **Ergonomics:** Design that minimizes slippage
- **Finish:** High precision fit
- **Visibility:** Colors that facilitate location
