Description

The NWS-2013-24 hexagonal socket, with a 1/2-inch drive and conforming to DIN 7448, is designed to deliver exceptional performance in industrial and maintenance applications. Made from forged, oil-treated chrome vanadium steel, this socket ensures superior durability and strength, making it a reliable tool for professionals. Its two-tone, multi-layered insulation, with a red exterior and a yellow interior, not only provides a secure grip but also facilitates quick tool identification in demanding work environments.

- **Material:** Forged and oil-treated chrome-vanadium steel
- **Size:** 1/2 inch
- **Standards:** Complies with DIN 7448
- **Insulation:** Two-tone, multi-layered (red exterior, yellow interior)
- **Use:** Ideal for industrial and maintenance applications
- **Durability:** High resistance to wear and corrosion
- **Design:** Hexagonal for improved fit and power transmission
- **Identification:** Distinctive colors for easy location
- **Compatibility:** Compatible with various impact tools
- **Manufacturing:** Forging process for greater robustness
