Description

The NWS-2013-27 hexagonal socket, with a 1/2-inch drive and conforming to DIN 7448, is designed to deliver exceptional performance in demanding applications. Made from forged, oil-treated chrome vanadium steel, this socket ensures superior durability and strength, making it an essential tool for both professionals and DIY enthusiasts. Its hexagonal design allows for a precise fit and a firm grip, minimizing the risk of slippage during use. The socket features a two-tone, multi-layered insulator, with a red exterior and a yellow interior, which not only provides a distinctive appearance but also improves the tool's visibility and identification on the job site.

Visibility: Distinctive colors for easy identification

Compatibility: Compatible with various impact tools

Maintenance: Easy to clean and maintain

Specifications

Part Number	4003758200278
Manufacturer	NWS
Weight (kg)	0,1900
