Description

The NWS-2023-18-200 hexagonal socket wrench is a high-quality tool designed to deliver exceptional performance in mechanical and maintenance applications. Made from forged, oil-treated chrome vanadium steel, this wrench ensures superior durability and strength, ideal for demanding work environments. Its hexagonal design allows for a precise and secure fit on bolts and nuts, minimizing the risk of slippage and wear. Additionally, it features a two-tone, multi-layered insulator, with a red exterior and a yellow interior, providing a comfortable and secure grip and reducing fatigue during prolonged use.

- **Material:** Forged and oil-treated chrome-vanadium steel
- **Type:** Hex socket wrench
- **Size:** 18 mm
- **Insulator:** Two-tone, multi-layered (red exterior, yellow interior)
- **Design:** Optimized ergonomics for a better grip
- **Use:** Ideal for mechanical and maintenance applications
- **Resistance:** High durability and wear resistance
- **Compatibility:** Compatible with a wide range of screws and nuts
- **Maintenance:** Easy to clean and maintain
- **Certification:** Meets industrial quality standards

Specifications

EAN	4003758203149
Manufacturer	NWS
Material	Steel
Weight (kg)	0,4600
