Description

The **Kukko-20-3-S** is a 2-legged universal bearing puller specifically designed for use in confined spaces. Measuring 250 x 200 mm, this puller features slim extraction hooks, allowing access to hard-to-reach places. Its versatility is further enhanced by optional extensions, available up to size -20, increasing its reach and functionality.

This model can be used as both an external and internal puller simply by rotating the extraction hooks. It is also suitable for removing asymmetrical machined parts, making it an indispensable tool in any workshop.

The spindle head depth stop prevents the wrench from slipping, ensuring safe and efficient use.

- Universal 2-leg puller with narrow claws for tight spaces.
- Ideal for removing bearings, pinions, and gear wheels.
- Includes a tube of special Kukko grease to keep the spindle properly lubricated.
- Maximum stability of the sliding leg.
- Easy movement and secure leg attachment.
- New, optimized guide rail geometry.
- Robust and durable construction.
- Compatible design for easy storage.
- Compatible with optional extensions.
- Versatile use in various mechanical applications.

Specifications

High	9,00
Width	8,50
EAN	4021176727511
Manufacturer	Kukko
Weight (kg)	6,9000
Depth	35,00
