KUKKO Universal 3-Legged Bearing Puller 250x200 mm for Tight Spaces

Brand: Kukko

Reference: TUR 30-3-S

The Kukko-30-3-S is a 3-legged universal bearing puller, ideal for tight spaces. Its slim hooks allow access to difficult areas, and its design ensures concentric removal. It includes a grease tube to keep the spindle lubricated.

Description

The **Kukko-30-3-S** is a 3-legged universal bearing puller specifically designed for use in confined spaces. Measuring **250x200 mm**, this puller features slim extraction hooks, allowing access to hard-to-reach areas. Its versatility is further enhanced by optional extensions, available up to size -20, increasing its reach and functionality.

This puller can be used for both external and internal extraction simply by rotating the extraction hooks. It is particularly effective for asymmetrical machined parts, ensuring a secure grip and concentric extraction.

The depth stop design on the spindle head prevents the wrench from slipping, providing greater safety during use.

Technical features include:

- Universal 3-leg puller with narrow teeth.
- Ideal for removing bearings, pinions, and gear wheels.
- Even force distribution for concentric extraction.
- Includes a special Kukko grease tube for spindle lubrication.
- Maximum stability in the sliding leg section.
- Easy movement and secure leg attachment.
- New, optimized guide rail geometry.
- Robust and durable construction.
- Compatible design for easy storage.

- Compatible with optional extensions for greater versatility.

Specifications

High	4,50
Width	31,00
EAN	4021176728013
Manufacturer	Kukko
Weight (kg)	9,4000
Depth	31,00
