

Product sheet

**KUKKO standard legs for bearing pullers - 200 mm long, versatile use.**

Brand: Kukko

Reference: TUR 3-200-E

Kukko-3-200-E are standard legs for 200 mm bearing pullers. They allow for variable clamping and are suitable for removing asymmetrical parts. Usable as external and internal pullers, they are a compatible accessory for Kukko pullers.

[View product online](#)**Description**

The Kukko-3-200-E standard legs are an essential accessory for the -3 and -30 model bearing pullers, with a length of 200 mm. Designed to offer variable clamping depth, these legs can be adapted to different puller sizes, up to size -20 with optional extensions. Their versatility is demonstrated by their ability to function as both external and internal pullers, simply by rotating the extraction hooks. Furthermore, they are suitable for extracting asymmetrical machined parts, making them an indispensable tool in any mechanical workshop.

- **Model:** Kukko-3-200-E
- **Length:** 200 mm
- **Type:** Standard legs
- **Compatibility:** Bearing pullers -3 and -30
- **Grip depth:** Variable, with optional extensions up to -20
- **Function:** External and internal puller
- **Use:** Extraction of bearings, gears, discs, etc.
- **Capacity:** Extracting asymmetrical machined parts
- **Accessory:** Replacement part for Kukko pullers
- **Material:** High strength and durability

Specifications

EAN	4021176003158
Manufacturer	Kukko
Weight (kg)	1,5800
