Description

The Kukko-3-400-E standard legs are an essential accessory for the -3 and -30 model bearing pullers, with a length of 400 mm. Designed to offer variable clamping depth, these legs can be adapted to different puller sizes, up to size -20 with optional extensions. Their versatility allows them to be used for both external and internal extraction, simply by rotating the extraction hooks. Furthermore, they are suitable for extracting asymmetrical machined parts, making them an indispensable tool in any mechanical workshop.

- **Model:** Kukko-3-400-E
- **Length:** 400 mm
- **Compatibility:** Bearing pullers -3 and -30
- **Grip depth:** Variable with optional extensions
- **Use:** External and internal puller
- **Functionality:** Extraction of asymmetrical machined parts
- **Type:** Standard legs
- **Applications:** Extraction of bearings, gears, discs, etc.
- **Accessory:** Replacement part for Kukko pullers
- **Material:** High strength and durability

Specifications

EAN	4021176003721
Manufacturer	Kukko
Weight (kg)	2,4600
