Description

The **Kukko-618105-Mechanical Spindle for Bearing Pullers** is an essential tool for professionals who require precision and efficiency in the bearing extraction process. Measuring 18 x 105 mm, this spindle is specifically designed for use with KUKKO pullers, ensuring optimal compatibility and superior performance.

One of the key features of this spindle is its head, equipped with a depth stop, which prevents the wrench from slipping during the extraction process, thus providing greater safety and control. Both the head and neck of the spindle are laser-marked with the part number, facilitating identification and ensuring product authenticity.

Furthermore, it features a special coating that improves its sliding ability, allowing for smoother and more efficient use.

- Dimensions: 18x105 mm
- Depth stop on the spindle head
- Laser-marked part number
- Special coating for improved sliding
- Reversible spindle tip for optimal adaptation
- Specially designed for KUKKO pullers
- High-strength material
- Easy to use and handle
- Ideal for professional applications
- Compatible with a wide range of bearings

This mechanical spindle is an indispensable tool for those seeking quality and durability in their extraction work.

Specifications

Colour	Black
EAN	4021176073779
Manufacturer	Kukko
Weight (kg)	0,2400
