**KUKKO 21x130 mm mechanical spindle with depth stop and reversible tip.**

Brand: Kukko

Reference: TUR 621130

KUKKO-621130 mechanical spindle for bearing pullers, measuring 21 x 130 mm. Equipped with a depth stop, laser markings, and a special coating for optimal sliding. Reversible tip for better shaft adaptation. Ideal for KUKKO pullers.

[View product online](#)**Description**

The **Kukko-621130-Mechanical Spindle for Bearing Pullers** is an essential tool for professionals who require precision and efficiency in bearing extraction. Measuring 21 x 130 mm, this spindle is specifically designed for use with KUKKO pullers, guaranteeing optimal performance in various mechanical applications. Its innovative design includes heads equipped with a depth stop, preventing the wrench from slipping during the extraction process, thus ensuring safe and controlled operation.

The spindle features a special coating that provides exceptional sliding capability, facilitating its use under demanding conditions.

Furthermore, both the spindle head and neck are laser-marked, allowing for quick and accurate identification of the part number.

- Dimensions: 21x130 mm
- Depth stop on spindle head
- Laser marking on head and neck
- Special coating for optimal sliding
- Reversible spindle tip for better adaptation
- Designed for KUKKO pullers
- High-strength material
- Professional and mechanical use
- Facilitates bearing removal
- Compatible with various industrial applications

This mechanical spindle is an indispensable tool for those seeking quality and durability in their extraction work.

Specifications

Colour	Black
EAN	4021176124358
Manufacturer	Kukko
Weight (kg)	0,1800
