**KUKKO 26x500 mm mechanical spindle with depth stop and reversible tip.**

Brand: Kukko

Reference: TUR 626500

KUKKO-626500 26x500 mm mechanical spindle, designed for bearing pullers. Includes a depth stop for added safety, laser marking on the head and neck, a special coating for optimal sliding, and a reversible tip for better shaft adaptation.

[View product online](#)**Description**

The Kukko-626500 mechanical spindle is an essential tool for bearing extraction, specifically designed for use with KUKKO extractors. Measuring 26 x 500 mm, this spindle is distinguished by its robustness and precision, guaranteeing optimal performance in various mechanical applications. Its design includes heads equipped with a depth stop, preventing the wrench from slipping during the extraction process, thus ensuring safer and more efficient operation.

The spindle features a special coating that provides exceptional sliding capability, facilitating its use in demanding environments.

Furthermore, both the spindle head and neck are laser-marked, allowing for quick and accurate identification of the part number.

- Dimensions: 26x500 mm
- Depth stop on spindle head
- Laser marking on head and neck
- Special coating for optimal sliding
- Reversible spindle tip for better adaptation to the shaft
- Specially designed for KUKKO pullers
- High-quality manufacturing
- Ideal for demanding mechanical applications
- Facilitates bearing removal
- Guaranteed durability and strength

This mechanical spindle is an indispensable tool for professionals seeking efficiency and quality in their extraction work.

Specifications

High	52,70
Width	3,20
Colour	Black
EAN	4021176765377
Manufacturer	Kukko
Weight (kg)	2,0850
Depth	3,20
