

Product sheet

**KUKKO 2-piece internal bearing puller (Ø 36-46 mm)**

Brand: Kukko

Reference: TUR 21-6

Kukko-21-6 internal bearing puller, designed for bearings with a diameter of 36-46 mm. Its two-shell design with extra-large edges ensures safe removal. Compatible with counterweights and slide hammers, it includes a grease tube for lubrication.

[View product online](#)**Description**

The Kukko-21-6 is an internal bearing puller designed to deliver superior performance in removing inner bearings, outer bearing rings, and bushings. Its robust construction and double-segment design with extra-large edges ensure safe and efficient removal, minimizing the risk of damage to the parts. This puller features an internal opening stop that protects against the effects of overloading, ensuring a long service life and high performance in a variety of applications. Furthermore, it is compatible with counterweights and slide hammers, making it a versatile tool for the professional.

- Working diameter: Ø 36-46 mm
- Two-shell design with extra-large edges for safe ejection
- Internal safety stop to prevent overloading and breakage
- Compatible with optional 21-V series extensions to reach deep bearings
- Versatile use with counterweights or impact bar
- Includes Kukko special grease tube for spindle lubrication
- Robust construction for a long service life
- High performance in component extraction
- Optimized design for safe and efficient extraction
- Ideal for professional applications in mechanics and maintenance

Specifications

High	3,70
Width	3,70
EAN	4021176011566
Manufacturer	Kukko
Weight (kg)	0,6800

Depth	16,00
