Description

The Kukko-KS-22-01 threaded part extraction set is an essential tool for professionals in trade, industry, and workshops. Designed for the efficient extraction of bushings and threaded components, such as dowel pins and bolts, this set stands out for its versatility and ease of use. The KS-22 series is ideal for situations where there is no support surface or it is too sensitive, ensuring smooth, contactless extraction. Its ergonomic design allows for optimal transmission of applied force, achieving a powerful impact effect.

The thread adapter can be combined with counterweights and slide hammers, making it a well-rounded assortment for universal use. The rolled thread has a special coating that ensures durability and resistance. Furthermore, the dimensions are clearly laser-engraved for quick and accurate identification.

Secure storage in special foam protects the tools and facilitates transport.

- Slide hammer set for extracting threaded parts (M3-M10).
- Includes a 300 mm, 1 kg slide hammer.
- Contains 3 union nuts (female/female) of different sizes.
- 6 threaded adapters (female/male) for internal and external threads.
- Ergonomic design for optimal force transmission.
- Special coating on the rolled thread for increased durability.
- Secure storage in special foam.
- Laser-engraved dimensions for easy identification.
- Recommended use in situations without a support surface.
- Guaranteed smooth, contactless extraction.

Specifications

High	8,30
Width	23,00
EAN	4021176924569
Manufacturer	Kukko
Weight (kg)	2,1200
Depth	27,50
