Description

The Kukko-KS-22-02 threaded part extraction set is an essential tool for professionals in trade, industry, and workshops. Designed for the efficient extraction of bushings and threaded components, such as dowel pins and bolts, this well-rounded assortment offers universal use. Its thread adapter allows for combination with counterweights and slide hammers, facilitating its application in various situations, especially when there is no support surface or it is too fragile. The rolled thread has a special coating that guarantees durability and wear resistance.

The ergonomically shaped sliding piece optimizes force transmission, achieving a strong impact effect and ensuring smooth, contactless extraction. The thread dimensions are laser-engraved, allowing for clear and quick identification of the correct inserts.

Secure storage in special foam protects the components and facilitates transport.

- Slide hammer set for extracting threaded parts.
- Thread adapters for use on internal and external threads.
- 300 mm, 1 kg slide hammer (KS-22-01-GH).
- Includes 3 union nuts (female/female) of different sizes.
- 6 thread adapters (female/male) for versatility.
- Rolled thread with special coating for increased durability.
- Secure storage in special foam for protection.
- Laser-engraved dimensions for easy identification.
- Ergonomic design for optimal force transmission.
- Smooth, contactless extraction, ideal for sensitive surfaces.

Specifications

High	27,50
Width	23,00
EAN	4021176951121
Manufacturer	Kukko
Weight (kg)	2,0000
Depth	8,30
