Description

The Kukko-69-B is a universal ball bearing puller set designed to deliver optimal performance in a variety of applications. This carefully selected assortment is ideal for universal use, allowing for the safe removal of bearings from various brands, including SKF, FAG, Timken, and NTN, as well as other manufacturers. The precise attachment of the bearing adapters ensures even and controlled removal of the inner and outer races, minimizing the risk of damage to the components.

The Kukko-69-B storage system is designed to keep all components neatly organized and protected. Thanks to its special foam inserts, each tool stays in place, facilitating quick access and identification.

Furthermore, all components of the set can be supplied as replacement parts, thanks to the number engraved on each piece, ensuring a long product lifespan.

- **Universal Use:** Compatible with bearings from various brands.
- **Precise Fixing:** Ensures safe and uniform removal.
- **Secure Storage:** Special foam for protection and organization.
- **Replacement Parts:** Availability of individual components.
- **Robust Design:** Durable construction for extended use.
- **Versatility:** Suitable for automotive and machinery applications.
- **Easy Handling:** Tools designed for intuitive use.
- **Precision:** Ideal for jobs requiring high accuracy.
- **Compatibility:** Works with bearings from different manufacturers.
- **Portability:** Compact design for easy transport.

Specifications

High	6,50
Width	15,50
EAN	4021176781476
Manufacturer	Kukko
Weight (kg)	1,9000
Depth	26,00
