Description

The Kukko-40-3 is a universal wheel hub extractor designed to offer a robust and efficient solution for removing hubs from vehicles of various sizes, including cars and trucks. This model features a shockproof design, ensuring its durability and resistance under demanding working conditions. Its spindle sits in a threaded sleeve on a movable support, providing additional protection to the thread and allowing the use of a hammer, if necessary, to complete the hub removal. With a stud diameter of up to 225 mm, this extractor is a versatile and essential tool for any mechanical workshop or automotive enthusiast.

- 3-legged extractor for greater stability and efficiency.
- Capacity for stud diameters up to 225 mm.
- Robust and impact-resistant construction.
- Spindle protected by a threaded sleeve.
- Movable support prevents damage to the thread.
- Ideal for cars and trucks.
- Ergonomic design for ease of use.
- Compatible with various extraction applications.
- Made from high-quality materials.
- Compact dimensions for easy storage.

Specifications

EAN	4021176014611
