Description

The Ruko-102152RO 6-piece countersink set, conforming to DIN 335 type C 90°, is an essential tool for professionals seeking precision and quality in their countersinking work. With diameters ranging from 6.3 mm to 20.5 mm, these countersinks are designed to deliver optimal performance on a wide range of materials, including steel, aluminum, brass, and plastics. Their high-speed steel (HSS) construction ensures exceptional durability and wear resistance, making them a reliable choice for demanding tasks.

Deep CBN flutes on the cutting edges allow for a clean, burr-free finish, minimizing vibration during the process.

This translates into better results, especially at low cutting speeds, making handling easier and improving work accuracy.

- **Number of cutting edges:** 3
- **Uncoated**
- **Cutting direction:** right-handed
- **Material:** HSS
- **Standard:** DIN 335
- **Countersink angle:** 90°
- **Shape:** C-type 90°
- **Main application:** 900 N/mm² steel, aluminum, brass, plastics
- **Other applications:** bronze, cast iron

Specifications

EAN	4007140147882
Manufacturer	Ruko
Material	Plástico
Weight (kg)	0,5000
