Description

The **Halder-3007.040-Simplex Superplastic Sledgehammer Ø 40 mm** is a versatile tool designed to meet the needs of construction and landscaping professionals. Its innovative design includes a two-piece body made of cast steel, providing exceptional durability and wear resistance. The handle, crafted from high-quality wood, ensures a comfortable and secure grip during use.

One of the most outstanding features of this sledgehammer is its interchangeable heads and handle system, allowing it to be easily adapted to different tasks. The handle and heads are secured quickly and efficiently with a central screw, optimizing working time and improving productivity.

The white superplastic heads are ideal for applications requiring controlled striking, preventing damage to the work surfaces.

This sledgehammer is perfect for a wide range of applications, including:

- Landscaping and exterior decoration
- Paving
- Setting edges and fences
- Driving steel wedges
- Erecting scaffolding and tents
- Working with sheet metal and prefabricated houses
- Carpentry and roofing
- Installing pieces with sharp edges
- Assemblies

The Halder-3007.040 is an essential tool for any professional looking for quality and functionality in their equipment.
