Description

The Halder-3026.040 sledgehammer is a versatile tool designed to meet the needs of professionals in a variety of applications. Its design includes interchangeable faces and a handle, allowing it to adapt easily to different tasks. The sledgehammer body is made of high-strength cast steel, ensuring durability and optimal performance under demanding conditions. The handle, crafted from high-quality wood, provides a comfortable and secure grip during use.

The handle and faces are easily and quickly secured with a central screw, making component changes quick and easy.

The faces are made from a combination of cellulose acetate and rubber, making them ideal for jobs requiring special care on delicate surfaces. Among the most notable applications of the Halder-3026.040 mallet are:

- Assembly and repair on cars and trucks
- Dent removal
- General maintenance
- Erection of scaffolding, tents, and prefabricated houses
- Carpentry

This mallet is an essential tool for any professional seeking quality and functionality in their equipment.
