Description

The Halder-3026.050 rubber mallet is a versatile and robust tool, designed to meet the needs of professionals in a variety of applications. Its two-piece cast steel construction ensures exceptional durability, while the high-quality wooden handle provides a comfortable and secure grip. This mallet features a quick and easy attachment system, allowing you to change the handle and claws using a central screw, thus optimizing its use for different tasks.

The mallet claws are made of cellulose acetate and rubber, making them ideal for work requiring special care on delicate surfaces. Their design allows for assembly and repair work on cars and trucks, as well as dent removal.

Furthermore, it is a useful tool for maintaining temporary structures such as scaffolding and tents, as well as for carpentry projects.

- Two-piece cast steel body
- High-quality wooden handle
- Interchangeable cellulose acetate and rubber tips
- Quick clamping via central screw
- Match diameter: Ø 50 mm
- Ideal for assembly and repair on cars and trucks
- Perfect for dent removal
- Useful for scaffolding and tent maintenance
- Carpentry applications
- Ergonomic design for extended use
