

Product sheet

RUKO HSS Step Drill Bit 5.0-28.0 mm (7 steps) for precise drilling.

Brand: Ruko

Reference: TUR 101058

Ruko-101058 HSS step drill bit, with a diameter of 5.0 to 28.0 mm and 7 steps. Ideal for drilling sheet metal up to 4 mm thick. Optimized design for precise, vibration-free cutting. Includes a translucent plastic case.

Description

The Ruko-101058 step drill bit is a high-precision tool designed for drilling sheet metal in various industries, including electrical, plumbing, heating, and automotive. Its innovative design incorporates a split point cutting edge according to DIN 1412 C, allowing for easier and more efficient drilling starts. With a 118° cutting angle and a 90° taper angle, this drill bit ensures a clean, precise cut, optimizing performance with every use.

CBN (Cubic Boron Nitride) grinding and spiral chip flutes are features that guarantee a clean and precise cut, minimizing noise, vibration, and burr formation. Each step of the drill bit is radially adjusted and ground, providing greater durability and work efficiency.

Furthermore, the steps are laser-marked for easy identification and use.

- Diameter: Ø 5.0-28.0 mm (7 steps)
- Material: HSS (High-Speed Steel)
- Cutting point: Split point DIN 1412 C
- Cutting angle: 118°
- Cone angle: 90°
- Right-hand cutting
- Drilling capacity: Sheet metal up to 4 mm
- Grinding: CBN
- Spiral chip ejection channel design
- Includes translucent plastic case with hanger

Specifications

High	3,30
Width	3,30
EAN	4007140001719
Manufacturer	Ruko
Weight (kg)	0,0900
Depth	7,90
