Description

The Ruko-102148 is a universal handle specifically designed for countersinks, with an 8 mm shank that provides a secure and stable grip. This product features a split point cutting edge according to DIN 1412 C, allowing for a precise and efficient start to the cut. Its 118° cutting angle and 20/30° taper angle ensure optimal performance in a variety of applications. The CBN ground design, along with the chip evacuation channels, minimizes noise, vibration, and burr formation, guaranteeing a clean and professional finish.

This handle is suitable for working with non-ferrous metals, steel, thermoplastics, and hard plastics, as well as sheet metal up to 4 mm thick.

It comes in a translucent plastic case for easy storage and transport, and includes a hanger for added convenience.

- Cutting point with split point DIN 1412 C
- Cutting angle: 118°
- Cone angle: 20/30°
- Right-hand cutting
- CBN grinding for efficient cutting
- Chip evacuation channel design
- Minimizes noise and vibration
- Suitable for non-ferrous metals and steel
- Compatible with thermoplastics and hard plastics
- Translucent plastic case with hanger

Specifications

High	4,00
Width	4,00
EAN	4007140003201
Manufacturer	Ruko
Weight (kg)	0,0800
Depth	12,00
