RUKO universal bit holder with 1/4" shank for precision tools

Brand: Ruko

Reference: TUR 102320

The Ruko-102320 is a universal bit holder with a 1/4" shank. Designed for precise cutting of non-ferrous metals, steel, and hard plastics. It includes a translucent plastic case and offers optimal performance with minimal noise and vibration.

Description

The Ruko-102320 Universal Bit Holder is a high-precision tool designed to deliver efficient and clean cuts in a variety of materials. Its DIN 1412 C split point cutting edge, combined with a 118° cutting angle and a 20/30° taper angle, allows for superior performance in drilling applications. Thanks to CBN grinding and the ingenious chip flute design, this tool minimizes noise, vibration, and burrs, ensuring a more comfortable and effective work process.

This bit holder is ideal for working with non-ferrous metals, steel, thermoplastics, and hard plastics, as well as sheet metal up to 4 mm thick.

Its translucent plastic case with hanger provides a practical solution for storage and transport, keeping the tool protected and accessible.

- Cutting point with split point DIN 1412 C
- Cutting angle: 118°
- Cone angle: 20/30°
- Right-hand cutting
- CBN grinding for optimal cutting
- Chip evacuation channel design
- Minimizes noise and vibration
- Suitable for non-ferrous metals and steel
- Compatible with thermoplastics and hard plastics
- Metal cutting capacity up to 4 mm thick

Specifications

High	4,00
Width	4,00
EAN	4007140039514
Manufacturer	Ruko
Weight (kg)	0,0700
Depth	12,00
