Description

The Ruko-102408 Flat Countersink DIN 373 is a high-precision tool designed for creating countersinks at a 180° angle. This countersink features three cutting edges that allow for right-hand cutting, ideal for creating countersinks on hexagonal and cylindrical head screws. Its robust and efficient design makes it a recommended choice for working with materials such as steel, cast iron, light metals, and non-ferrous metals. The cylindrical handle provides a comfortable and secure grip, facilitating its use in straight holes with a medium pitch.
