Description

The Ruko-102410 Flat Countersink DIN 373 is a high-precision tool designed for countersinking at a 180° angle. This countersink features three cutting edges that allow for right-hand cutting, ideal for creating countersinks on hexagonal and cylindrical head screws. Its robust and efficient design makes it a recommended choice for working with materials such as steel, cast iron, light metals, and non-ferrous metals, guaranteeing optimal results every time.

The Ruko-102410's cylindrical handle provides a comfortable and secure grip, facilitating its use during the countersinking process.

This product is especially suitable for straight holes with a medium pitch, making it versatile for various industrial and DIY applications.
