Description

The Ruko-102411 Flat Countersink DIN 373 is a high-precision tool designed for 180° countersinking, ideal for hexagonal and cylindrical head screws. Featuring a design with three cutting edges and a right-hand cut, this countersink is perfect for creating straight holes with a medium pitch, guaranteeing a clean and professional finish on various materials. Its high-speed steel (HSS) construction makes it especially recommended for working with steel, cast iron, light metals, and non-ferrous metals, ensuring durability and strength with every use.

The cylindrical handle provides a comfortable and secure grip, facilitating handling in precision applications.

Furthermore, the product comes in a translucent plastic case with a hanger, allowing for easy organization and transport.

- **Pitch:** Medium
- **Countersink Angle:** 180º
