Description

The Ruko-102415 Flat Countersink DIN 373 is a high-precision tool designed for creating countersinks at a 180° angle. This countersink features three cutting edges that allow for right-hand cutting, ideal for preparing holes before threading hexagonal and cylindrical head screws. Its high-speed steel (HSS) construction ensures exceptional durability and optimal performance on a variety of materials.

This countersink is especially recommended for use on steel, cast iron, light metals, and non-ferrous metals, making it a versatile tool for professionals and DIY enthusiasts.

Its cylindrical handle provides a comfortable and secure grip, facilitating its handling during work.

The Ruko-102415 comes in a translucent plastic case with a hanger, allowing for easy organization and storage, protecting the tool from damage and ensuring its longevity.

- **Countersink Angle:** 180º
- **Number of Cutting Edges:** 3
- **Cutting Direction:** Right-handed
- **Compatibility:** Hex and socket head screws
- **Recommended Materials:** Steel, cast iron, light and non-ferrous metals
