The Ruko-102416 Flat Countersink DIN 373 is a high-precision tool designed for countersinking hexagonal and cylindrical head screws. With a 180° countersinking angle and three cutting edges, this countersink allows for right-hand cutting, guaranteeing a clean and professional finish every time. Its robust design makes it ideal for working with materials such as steel, cast iron, light metals, and non-ferrous metals, making it a versatile tool for various industrial and DIY applications.

The Ruko-102416's cylindrical handle provides a comfortable and secure grip, facilitating its use during the countersinking process.

This product is especially useful for preparing holes before tapping, ensuring that screws seat properly and securely.

- Countersink angle: 180°
- Number of cutting edges: 3
- Cut: Right-hand
- Compatible with hexagonal and socket head screws
- Recommended materials: Steel, cast iron, light and non-ferrous metals
- Shank: Cylindrical
- Use: Pre-tapping holes
- Packaging: Translucent plastic case with hanger
