

Product sheet

RUKO 180° HSS flat countersink, M8 DIN 373 thread, high precision and durability.

Brand: Ruko

Reference: TUR 102419

Ruko-102419 Flat Countersink, DIN 373, with 180° angle and 3 cutting edges. Designed for hexagonal and cylindrical head screws. Ideal for steel, cast iron, and light metals. Includes translucent plastic case. Cylindrical handle.

[View product online](#)**Description**

The Ruko-102419 Flat Countersink DIN 373 is a high-precision tool designed for creating countersinks at a 180° angle. Made of high-speed steel (HSS), this countersink is ideal for preparing holes for tapping, facilitating the insertion of hexagonal and cylindrical head screws. Its design features three cutting edges that allow for right-hand cutting, ensuring a clean and efficient finish on various materials.

This countersink is especially recommended for use on steel, cast iron, light metals, and non-ferrous metals, making it a versatile tool for professionals and DIY enthusiasts. Its cylindrical handle provides a comfortable and secure grip, allowing for optimal control during use.

Furthermore, it comes in a translucent plastic case with a hanger, making it easy to store and transport.

- Countersink Angle: 180°
- Material: HSS (High-Speed Steel)
- Cutting Type: Right-hand
- Number of Cutting Edges: 3
- Compatible with Hex and Socket Head Cap Screws
- Recommended for Steel, Cast Iron, Light and Non-Ferrous Metals
- Cylindrical Handle for a Comfortable Grip
- Use: Pre-tapping Holes
- Presentation: Translucent Plastic Case with Hanger
