Description

The Ruko-102405T DIN 373 HSS-TiN Flat Countersink is a high-precision tool designed for countersinking hexagonal and cylindrical head screws. With a 180° countersinking angle and three cutting edges, this countersink allows for right-hand cutting, ensuring a clean and professional finish every time. Its design is ideal for working with materials such as steel, cast iron, light metals, and non-ferrous metals, making it a versatile option for various machining tasks.

The cylindrical shank provides a comfortable and secure grip, facilitating its use in through holes with fine pitch.

Furthermore, the product comes in a translucent plastic case that includes a hanger, ensuring easy storage and transport.
