The Ruko-102406T DIN 373 HSS-TiN Flat Countersink is a high-precision tool designed for countersinking hexagonal and cylindrical head screws. With a 180° countersinking angle and three cutting edges, this countersink ensures a clean cut, making it suitable for a variety of applications. Its high-speed steel (HSS) construction, coated with titanium nitride (TiN), provides exceptional durability and wear resistance, making it ideal for working with materials such as steel, cast iron, and light and non-ferrous metals.

The Ruko-102406T's cylindrical shank provides a comfortable and secure grip, facilitating its use in through holes with fine pitch.

Furthermore, it comes in a translucent plastic case with a hanger, ensuring its protection and easy storage.

- Countersink Angle: 180°
- Number of Cutting Edges: 3
- Cutting: Right-hand
- Compatible with Hex and Socket Head Screws
- Material: High-Speed Steel (HSS) with TiN coating
- Recommended for: Steel, Cast Iron, Light and Non-Ferrous Metals
- Shank: Cylindrical
- Hole Type: Through
- Pitch: Fine
- Includes translucent plastic case with hanger

Specifications

High	2,30
Width	2,30
EAN	4007140117373
Manufacturer	Ruko
Weight (kg)	0,1000
Depth	11,00
