Description

The Ruko-102409T DIN 373 HSS-TiN Flat Countersink is a high-precision tool designed for countersinking hexagonal and cylindrical head screws. With a 180° countersinking angle and three cutting edges, this countersink allows for right-hand cutting, ensuring a clean and efficient finish. Its high-speed steel (HSS) construction with a titanium nitride (TiN) coating provides exceptional durability and wear resistance, making it an ideal choice for working with steel, cast iron, light metals, and non-ferrous metals.

The Ruko-102409T's cylindrical handle provides a comfortable and secure grip, allowing for precise control during use.

This countersink is especially suitable for through holes with a medium pitch, making it versatile for various applications in the industrial and construction sectors.

- **Pitch:** Medium
- **Countersink Angle:** 180°
- **Number of Cutting Edges:** 3
- **Cut:** Right-handed
- **Compatibility:** Hex and socket head screws
- **Recommended Material:** Steel, cast iron, light and non-ferrous metals
- **Case:** Translucent plastic with hanger
- **Handle:** Cylindrical
- **Use:** For through holes

Specifications

High	1,30
Width	1,30
EAN	4007140117403
Manufacturer	Ruko
Weight (kg)	0,0100
Depth	8,10
