The Ruko-102412T DIN 373 HSS-TiN Flat Countersink is a high-precision tool designed for countersinking hexagonal and cylindrical head screws. With a 180° countersinking angle and three cutting edges, this countersink allows for right-hand cutting, guaranteeing a clean and professional finish every time. Its high-speed steel (HSS) construction with a titanium nitride (TiN) coating provides exceptional durability and wear resistance, making it ideal for working with materials such as steel, cast iron, light metals, and non-ferrous metals.

The Ruko-102412T's cylindrical handle facilitates a comfortable and secure grip, allowing for precise control during the countersinking process.

This countersink is specifically designed for through holes with a medium pitch, making it a versatile tool for various industrial and construction applications.

- Model: Ruko-102412T
- Type: Flat countersink DIN 373
- Material: HSS with TiN coating
- Countersink angle: 180°
- Number of cutting edges: 3
- Cutting: Right-hand
- Recommended for: Steel, cast iron, light and non-ferrous metals
- Shank: Cylindrical
- Use: Through holes - medium pitch
- Packaging: Translucent plastic case with hanger

Specifications

High	2,00
Width	2,00
EAN	4007140117434
Manufacturer	Ruko
Weight (kg)	0,0900
Depth	11,00
