Description

The Ruko-102414T DIN 373 HSS-TiN Flat Countersink is a high-precision tool designed for countersinking hexagonal and cylindrical head screws. With a 180° countersinking angle and three cutting edges, this countersink allows for right-hand cutting, ensuring a clean and efficient finish. Its high-speed steel (HSS) construction with a titanium nitride (TiN) coating provides exceptional durability and wear resistance, making it an ideal choice for working with steel, cast iron, light metals, and non-ferrous metals.

The Ruko-102414T's cylindrical handle provides a comfortable and secure grip, allowing for optimal control during use.

This countersink is specifically designed for through holes with a medium pitch, making it versatile for various industrial and DIY applications.
